## Gérard Lutte special guest at Milano-Bicocca

**Emeritus professor Gérard Lutte** hold a seminar to describe **Mojoca's 15 years of activity**.

A crowded lecture hall assisted to his seminar on the self-operated Street Children Movement in Guatemala and the positive aspects and values of this reality: the project wants to strengthen these values and develop them on the way of self-management, self-determination, liberating friendship.

Nothing is given as a gift and everything is to be gained trough work, study and personal and community-minded efforts.
